Appendix 2

etailed Nomination Committee (NC) Recommendation

To: To the Shareholders of FLEX LNG

From: Recommendation from the Nomination Committee of FLEX LNG, George Linardakis and Marcus Hansson

Date: 13 October 2016

Subject: Recommendation and Nominations to the Board of FLEX LNG

The members of the nomination committee (the Committee) are selected to take into account the interests of shareholders in general. The members of the committee are not members of the board. The committee does not include any of the company's executive personnel.

The committee has been in effect and active since the Annual General Meeting in 2015. The committee has discussed the board's performance and expertise during the period to the 2016 AGM with the Chairman of the Board. In addition the committee has sought the views of shareholders and was open to shareholders making suggestions on nominations.

According to the Code of Practice for Corporate Governance the committee has evaluated the need for changes in the board's and committee's composition. The review has emphasised the need for the Board composition to reflect a range of experience, knowledge and qualifications. Given current industry and Company specific challenges, the Nomination Committee also recognises the value of preserving continuity on the Board. The committee has maintained contact with shareholder groups, members of the board and the company's executive personnel. The committee has actively sought to represent the views of shareholders in general, and has been able to make use of resources available in the company. The committee feels that the proposed Board has the necessary experience and skills to deliver value to shareholders as the LNG Carrier vessels are built and charter parties sought, including evaluating alternative strategic options that are available to the company. In addition they recognise the need for the Company to maintain control of the group's ongoing costs.

With regards to FLEX LNG's Annual General Meeting in 2016 the nomination committee unanimously proposes the following:

The NC recommendation for the Board of Directors slate

The company's articles of association stipulate that the board shall have between 3-9 members, including the requirement that two directors should be independent. The present board of FLEX LNG consists of Mr. McManus, Mr. Hermansen and Mr. Bakken.

The board consisting of Mr. McManus, Mr. Jens Martin Jensen and Mr. Bakken was elected by the Annual General Meeting in 2015 for a period to the 2016 Annual General Meeting. However Mr. Jens Martin Jensen resigned from the board on 2 December 2015 and Mr. Marius Hermansen was appointed on 7 December 2015 (by written resolutions of the shareholders), to fill that vacancy, until FLEX LNG's Annual General Meeting in 2016, and thus all of the directorships are up for election this year.

Upon careful consideration and deliberation, the NC is recommending that investors consider voting on the re-election of the current board:

- The NC nominations for Directors are:
 - David McManus (independent)

- Robin Bakken (independent)
- Marius Hermansen

Remuneration for the Board of Directors

In the year since the 2015 AGM the board's workload has been representative of a normal workload. The Committee has reviewed the remuneration paid to the board, and proposes the following for the period from the 2016 AGM to the 2017 AGM:

The Nomination Committee recommends remuneration of USD 40,000 annually for the directors and USD 100,000 for the Chairman. Directors are able to elect to receive up to 100% of their remuneration in restricted stock.

The proposal reflects the board's responsibilities, competence, the use of time and the complexity of the business. The proposed remuneration of the Chairman is higher than the director's fees due to the additional workload implicit in the position of Chairman, additionally the costs are unchanged from those paid in the previous year.

Remuneration for the Nomination Committee

In the prior year the nomination committee received an annual compensation of USD 2,500 each. It is proposed not to make any changes and that the remuneration of the nomination committee for 2016, should remain the same as for 2015. Where the committee takes on additional duties the Board can approve the additional payment.

The NC recommendation for the Nomination Committee slate

The nomination committee would like to propose George Linardakis and Marcus Hansson to be reappointed as the members of the committee for a period of one year from the 2016 shareholder meeting.

Procedures for the Remuneration of Executive Management.

Board of Directors' Guidelines on Remuneration of the Executive Management

Introduction

In accordance with recommendation 12 of the Norwegian Corporate Governance Code and the corresponding commitment of the Company, the FLEX LNG Board of Directors has prepared a remuneration program for the determination of salary and other benefits for inter alia the executive management of FLEX LNG Management Limited. Below the main elements of the program for the members of the executive management are summarised. The program applies to the fiscal year 2016 and this summary is presented to the shareholders for their advisory vote at the 2016 annual general meeting.

Terms in this statement regarding the allocation of shares and options in the Company are binding for the Board of Directors, including the guiding terms, when approved by Shareholders.

Principles

The FLEX LNG remuneration program is designed to:

- Provide incentives that align management and employees with the interest of shareholders;
- Provide a competitive incentive plan to ensure attraction and retention of key personnel;
- Total remuneration shall reflect the responsibility and obligations of management and employees; and
- To include a share option scheme to incentivise employees while the company does not have strong cash flows.

The FLEX LNG remuneration program shall be reviewed regularly against competitors and the sector in general. Such evaluation will be performed at least annually and any recommendations for adjustments to the program or remuneration of the members of the executive management will be submitted to the Board of Directors via the Remuneration Committee for approval.

The Program

The FLEX LNG remuneration program for the members of the executive management comprises a set of employee benefits including both fixed and variable elements.

a) Fixed Salary and Allowances

The members of the executive management, like all FLEX LNG employees, receive a fixed base salary paid on a monthly basis, dependent both on their position, expertise, and location and market conditions. Furthermore, the remuneration program for the members of the executive management include a medical program providing medical care for the employee, disability cover and life assurance for the employee, travel insurance, a tax return service (if required) and mobile and data costs, and when relocating benefits such as transportation and temporary accommodation.

b) Variable Remuneration

Any variable remuneration proposed by the the Board of Directors and Remuneration Committee will ensure that the different elements of the bonus scheme are realistic and challenging.

c) Share Option Schemes

The Company has operated share option and warrant programs since start-up in 2007. Following the mandatory bid, for the Company, in late 2014 the historical option schemes have either lapsed or vested. Currently the executive management hold no remaining share options in the Company. The staff option program was designed to retain and reward personnel, following the mandatory bid all options either vested or lapsed.

The Company expects in the future to make option grants to executive management and employees from the option scheme approved by shareholders at the 2011 General Meeting. The terms of such awards will be tied to the long term success of the Company.

The issuance of any new shares or granting of new share options shall only take place upon the General Meeting's approval.

d) Pensions Schemes

The Group operates contribution-based schemes in the UK. The company payments into the schemes are 5% of base salary for management and employees.

e) End of Service Benefits

Currently management and staff have a three month notice period, should the Company look to terminate employment. In addition upon termination by the Company, there will be severance payments due, equal to one month's pay for each year of service on a prorata basis, capped at twelve months. This would be augmented by statutory payments, if required by law.

General Application of the Remuneration Program

The above summary deals primarily with the remuneration of the executive management and staff more generally. Additional details on the remuneration for senior management can be found in notes 3 and 13 of the Group's annual financial statements.
